State University of Trade and Economics

08/2020 – present | Kyiv, Ukraine

## 🌐 LANGUAGES

### English

Intermediate(B1)

### Ukrainian

Native(C2)

## 📖 COURSES

### Web Development

Codecademy

09/2022 – present

## 👤 OBJECTIVE

My goal is to join a highly professional front-end development team where I can actively contribute to the process of creating exciting and high-quality web applications.

I'm attracted to the opportunity to create innovative interfaces that not only meet the functional needs of users, but also inspire them and facilitate their interaction with technology.

Given my year of non-profit experience, I am ready to invest in training and self-improvement to make a significant contribution quickly.

Ready to take on challenges and help achieve common goals, I believe I can become an integral part of your successful front-end development team.

## > HARD SKILLS

HTML | CSS | Sass/SCSS | JavaScript (ES6+) | jQuery

Bootstrap | React | React Bootstrap

Redux (Redux Toolkit) | Firebase | Mocha.js | Git

Figma | npm | Chrome DevTools | React DevTools

## 🧠 SOFT SKILLS

Self-learning | Time management | Versatility

Teamwork ability | Solving problematic issues | Creativity

## 📁 PROJECTS

### Interior Design Studio

Developed a multi-page landing website for a non-profit project of an imaginary company that provides services in: interior design, decorative services, space planning and project management.

**Technology stack:** HTML, SCSS, JavaScript, jQuery, Bootstrap

### React Chat

Developed real-time chat application that allows users to communicate instantly, without the need to refresh the page.

**Technology stack:** React, React Router v6, Redux, SCSS, Firebase, Moment.js.

### Weather App

Developed app that allows users to search for weather information by city name. It uses the OpenWeather API to retrieve weather data, displays the current weather conditions.

**Technology stack:** React, SCSS, Moment.js, React Bootstrap
