OBJECTIVE

Front-End developer with 1 year of non-commercial experience in creating and maintaining web application user interfaces, as well as debugging and testing them.

Motivated to apply my skills to improve existing and design new functionality. Also willing to invest in training and self-improvement to make a significant contribution in a timely and efficient manner.

HARD SKILLS

HTML | CSS | Sass/SCSS | JavaScript (ES6+) | jQuery

Bootstrap | React | React Bootstrap

Redux (Redux Toolkit) | Mocha.js | Git | Figma | npm

Chrome DevTools | React DevTools

SOFT SKILLS

Responsibility | Time-management | Teamwork ability

Creativity | Self-learning | Adaptability

PROJECTS

Interior Design Studio

Developed a multi-page landing page for a non-profit project of a fictional company that provides interior design, decorative services, space planning, and project management.

Technologies stack: HTML, SCSS, JavaScript, jQuery, Bootstrap.

React Chat

Developed a real-time chat application that allows users to communicate without having to refresh the page.

Technology stack: React, React Router v6, Redux, SCSS, Firebase, Moment.js.

Weather App

Developed an application that allows users to search for information about weather conditions by city name and current location. The application uses the OpenWeather API to retrieve weather data.

Technology stack: React, SCSS, Moment.js, React Bootstrap.
